STRASSER Adds NW Green Hue to Vanity Line

Suitable for contemporary and transitional vanities, NW Green exudes the calming feel of nature.

(Woodinville, WA, April 6, 2022) **STRASSER**, manufacturer of high-quality, luxury vanities, now offers NW Green, a soothing custom color inspired by the Pacific Northwest. A blend of the many green hues found in the forest, NW Green brings the warm ambience of nature indoors. Paired with complementary shades of gold, blue, or even a splash of purple, NW Green evokes an energetic feel of springtime.

“Green is a restorative, rejuvenating color, so it works beautifully in the bath,” said Judy Hedreen, President of STRASSER.

“By exuding the calming effect of the natural world, it’s a hue that can truly enhance a spa-like environment.”

NW Green is an ideal fit with all of STRASSER’s vanities, well-suited to both contemporary and transitional styles and to each of the available hardwood species—solid cherry, maple, red oak, and alder. In addition to NW Green, vanities are available in a wide variety of gloss and matte finishes from black and white to exotic blue.
